

VISTA - Details

CONSTRUCTION

Movable partition wall system in aluminum construction as a stand-free all-glass construction with filigree floor and ceiling profiles.

CONSTRUCTION HEIGHT

Max. height 3,300 mm

Unlimited wall length

WALL THICKNESS

Profile thickness 25 mm

Door frame profile and door side part 58 mm

SURFACE

A maximum of 3.5 m² glass surface can be achieved without a glass joint

SOUND ABSORPTION

ESG 10 mm R_{wP} = 31 dB laboratory value

VSG Si 10 mm R_{wP} = 36 dB laboratory value

VSG Si 12 mm R_{wP} = 37 dB laboratory value

DOOR ELEMENTS

Wall-high or door-high aluminum frame with 3-dimensional adjustable hinge substructure

Door leaves: Frameless all-glass door leaf, aluminum tubular frame door leaf, wooden door leaf, sliding door construction all-glass

EXECUTION

1-part or 2-part connection profiles, uniform height of 45 mm

Butt jointed without profile, glass connection with a passivated, recessed pure acrylate dry seal, joint width 2 mm

ATTACHEMENTS

Installation of switches and sockets in special aluminum door side panel, width 125 mm

Light switch (low-voltage system) can be integrated in the frame
